Ryan Geib – (270) 873-2250

**ENGINEER:**

Smith Seckman Reid  
2995 Sidco Drive  
Nashville, TN 37204

**PROJECT SUMMARY:**

This project focused on the mechanical HVAC, plumbing and medical gas installations for a 5 story, 150,000 square foot hospital addition. Systems included high and medium pressure steam, sanitary steam, hot water, chilled water, medical gas, domestic water, waste and vent. Extensive CAD Coordination was required due to the limited mechanical space and unique architectural features of the hospital.
